FERTO 200

FEATURES

The design of the Rula-Agri Ferto 200 allows it to be converted into a chaser bin to ensure that the trailer can be used throughout the season. The 400mm seed and fertiliser conveyor, Ø250mm fertiliser auger and the PTO driven chaser bin auger can be fitted on either side of the trailer for ultimate usability. The rear of the Ferto 200 features a storage bay which could house up to 50 bags of seed or fertiliser. The trailer is equipped with a top and rear tarpaulin cover.

FEATURES

The new Rula-Agri Ferto 200 sets the standard in the material handling sector.

- A multipurpose trailer that can serve as both a fertiliser trailer and a chaser cart.
- A 10° articulating front axle together with a short wheelbase enables the trailer to be used in every area of your farm.
- It also features two hydraulically controlled, quick discharge sluices, enabling handling of two different materials.
- An optional PTO driven split-type loadout auger is available.
- Optional Extras:
 - Load-Cell
 - Hydraulic Brake System
